

This listing of claims will replace all prior versions, and listings, of claims in the application:

Listing of Claims

Claim 1 (Currently Amended): An in-vehicle audio browser comprising:

a first set of buttons configured to select a preset item;

~~a second set of buttons configured to move forward and backward~~

~~through a list of items;~~

a ~~third~~second button configured to select between a first list of items

and a second list of items associated with the audio browser, wherein the first list

comprises a first plurality of bands including primary audio control bands and the

second list comprises a second plurality of bands including conditional audio

control bands; and

a third button configured to cycle through and select a desired band

from the list of items selected by the second button; and

a fourth button configured to activate a function that varies depending on the selected band.

Claim 2 (Currently Amended): An in-vehicle audio browser as recited in claim 1, wherein the first plurality of bands includes at least one of a radio band, and a CD player band.

Claim 3 (Currently Amended): An in-vehicle audio browser as recited in claim 1, wherein the second plurality of bands includes at least one of:

a digital media band;

1 a navigation band;
2 a contact list band; and
3 a telephone task band.

4
5 Claim 4 (Currently Amended): An in vehicle audio browser as recited in
6 claim

7 ~~4-1~~, further comprising a display configured to identify the selected band.

8
9 Claim 5 (Canceled): An in-vehicle audio browser as recited in claim 1,
10 wherein the plurality of bands includes a set of primary audio control bands and a
11 set of conditional audio control bands.

12
13 Claim 6 (Currently Amended): An in-vehicle audio browser audio as
14 recited in claim 1, ~~wherein the primary audio control bands affect the audio control~~
15 ~~bands~~ further comprising a fifth set of buttons configured to move forward and
16 backward through elements in the selected band.

17
18 Claim 7 (Previously Presented): An in-vehicle audio browser as recited in
19 claim 1, wherein the primary audio control bands affect the audio output when
20 selected.

21
22 Claim 8 (Original): An in-vehicle audio browser as recited in claim 1,
23 wherein the fourth button is configured to save currently playing audio output.
24
25

O:\DOCS\MS108691\15712738300.DOC

1 Claim 9 (Canceled): An in-vehicle audio browser as recited in claim 1,
2 wherein the fourth button is configured to save currently playing audio output.
3

4 Claim 10 (Original): An in-vehicle audio browser as recited in claim 1,
5 wherein the fourth button is configured to select among a current task.
6

7 Claim 11 (Currently Amended): An in-vehicle audio browser as recited in
8 claim 1, ~~further comprising a fifth button configured to select among a plurality of~~
9 audio sources wherein the conditional audio control bands do not affect the audio
10 output unless a function requiring an audio output is activated with the fourth
11 button.
12

13 Claim 12 (Original): An in-vehicle audio browser as recited in claim 1,
14 wherein the audio browser stores various information, and wherein the stored
15 information is synchronized with an external computing device.
16

17 Claim 13 (Currently Amended): An in-vehicle audio browser comprising:
18 ~~a first set of buttons configured to select a preset item;~~
19 ~~a second~~first button configured to select between a set of primary
20 audio control bands and a set of conditional audio control bands; and
21 ~~a third~~second button configured to select a band from the set of
22 bands selected by the second button; and
23 a third set of buttons configured to select a preset item, wherein the
24 preset item is dependant on the selected band.
25

1 Claim 14 (Original): An in-vehicle audio browser as recited in claim 13,
2 wherein the primary audio control bands affect the audio output when selected.

3
4 Claim 15 (Original): An in-vehicle audio browser as recited in claim 13,
5 wherein the conditional audio control bands do not affect the audio output unless
6 some action on the band requires audio output.

7
8 Claim 16 (Canceled): An in vehicle audio browser as recited in claim 13,
9 wherein the conditional audio control bands do not affect the audio output unless
10 some action on the band requires audio output.

11
12 Claim 17 (Original): An in-vehicle audio browser as recited in claim 13,
13 further comprising a fourth button configured to activate a function that varies
14 based on the band.

15
16 Claim 18 (Original): An in-vehicle audio browser as recited in claim 13,
17 further comprising a fourth button configured to activate a function that varies
18 based on the selected band.

19
20 Claim 19 (Original): A user interface for an in-vehicle audio browser, the
21 user interface comprising:

22 a source button to select between a set of primary audio control bands
23 and a set of conditional audio control bands;

24 a band button to select a band from the selected set of audio control
25 bands; and

5
01PDCS10869US1766495.DOC

1 a display device coupled to the band button for displaying the band
2 currently selected by the band button.
3

4 Claim 20 (Original): A user interface as recited in claim 19, wherein the
5 primary audio control bands affect the audio output when selected.
6

7 Claim 21 (Original): A user interface as recited in claim 19, wherein the
8 conditional audio control bands do not affect the audio output unless some action
9 of the band requires an audio output.
10

11 Claim 22 (Currently Amended): A user interface as recited in claim 19,
12 wherein the primary audio control bands include at least one of a radio band and a
13 CD player band.
14

15 Claim 23 (Canceled): A user interface as recited in claim 19, wherein the
16 conditional audio control bands do not affect the audio output unless some action
17 of the band requires an audio output.
18

19 Claim 24 (Canceled): A user interface as recited in claim 19, wherein the
20 primary audio control bands include a radio band and a CD player band.
21

22 Claim 25 (Currently Amended): A user interface as recited in claim 19,
23 wherein the conditional audio control bands include at least one of a navigation
24 band and a contact list band.
25

1 **Claim 26 (Original):** One or more computer-readable media having stored
2 thereon a computer program that, when executed by one or more processors,
3 causes the one or more processors to:

4 display a currently selected car radio band, wherein the car radio
5 supports a primary audio control band and a conditional audio control band;

6 changing the currently selected car radio band in response to
7 activation of a first car radio button; and

8 moving through a list of items associated with the currently selected
9 car radio band in response to activation of a second car radio button.

10
11 **Claim 27 (Original):** One or more computer-readable media as recited in
12 claim 26, wherein the one or more processors further select a particular item in the
13 list of items associated with the currently selected car radio band using a set of
14 preset buttons.

15
16 **Claim 28 (Currently Amended):** One or more computer-readable media as
17 recited in claim 26, wherein the primary audio control band includes at least one of
18 an AM radio band, an FM radio band, and a CD player band.

19
20 **Claim 29 (Currently Amended):** One or more computer-readable media
21 as recited in claim 26, wherein the conditional audio control band includes at least
22 one of a navigation band and a contact list band.

1 Claim 30 (Canceled): One or more computer-readable media as recited in
2 claim 26, wherein the primary audio control band includes an AM radio band, an
3 FM radio band, and a CD player band.
4

5 Claim 31 (Canceled): One or more computer-readable media as recited in
6 claim 26, wherein the conditional audio control band includes a navigation band
7 and a contact list band.
8

9 Claim 32 (Currently Amended): One or more computer-readable media as
10 recited in claim 026, wherein the one or more processors further save currently
11 playing audio content in response to activation of an ACT button on the car radio.
12

13 Claim 33 (Original): One or more computer-readable media as recited in
14 claim 26, wherein the one or more processors further dial a phone number
15 currently displayed on the car radio in response to activation of an ACT button on
16 the car radio.
